

[MSPO Part 3 & MSPO Part 4]

HRDF Claimable

INTRODUCTION

Oil palm-based activities, products and services that interact with the environment are referred to as “aspects”, which may have a negative or positive impact on the environment. Typically, aspects might include emissions to air, discharges to water and waste arising, which in turn may generate environmental and health impacts such as global warming, water pollution or contaminated land. Some activities, such as those of an office-based service, will have relatively minor environmental impacts, such as energy used and emissions linked to air conditioning. Whereas some heavy operational aspects such as processes that cause emissions to air and discharges to water may have significant environmental impacts. Managing environmental aspects and impacts is arguably the most important component of an environment management system. This topic explains how to identify environmental aspects and related impacts and provides useful methods for determining relative significance in terms of risks to the environment. It also explains how to compile a register of significant aspects and impacts. Social impact assessment (SIA) is the process of identifying and managing the social impacts in oil palm plantation (estate and mill). It can also be applied to policies, plans and programmes. SIA is used to predict and mitigate negative impacts and identify opportunities to enhance benefits for local communities and broader society

TARGET AUDIENCE

- Oil Palm Plantation & Palm Oil Mill

LEARNING OUTCOMES

- Ability to adapt the principle of Plan-Do-Check-Act (PDCA) on MSPO Principle 4 & 5 in respective working place.;
- Consultancy and certification preparation support;
- Ability to review your current state of preparedness for certification;
- Assist in general documentation review and preparation guidance.

METHODOLOGY

Training and development referring to activities created to enhance the knowledge and skills of participants by providing adequate information, workshop, group discussion and specific work-requirement needs and expectations review and action plan to improve it for better output.

WHAT YOU WILL COVER?

D A Y	MORNING SESSION (9.00 AM – 1.00 PM)	AFTERNOON SESSION (2.30 PM – 5.00 PM)	D A Y	MORNING SESSION (9.00 AM – 1.00 PM)	AFTERNOON SESSION (2.30 M – 5.00 PM)
1	<ol style="list-style-type: none"> 1. Introduction to course terminology and definitions; 2. Requirements of certification schemes in relation to identifying, assessing and reviewing environmental aspects and impacts; 3. Identifying, assessing and reviewing environmental aspects and impacts; 4. Establishment a comprehensive and sustainable records of the aspects and impacts; 5. Formation an auto-operating environmental management system; 	<ol style="list-style-type: none"> 1. Best Management Practices (BMP); 2. General overview on high conversation and biodiversity value in workplace; 3. Awareness on handling wastes and mitigating pollution; 4. Integrating environmental awareness and requirements in daily operations 	2	<ol style="list-style-type: none"> 1. An introduction to quantitative and qualitative research methods for understanding impact. This will be a non-technical introduction to the main concepts of impact analysis with guidelines on what types of impact assessment are acceptable and which to avoid; 2. An introduction to monetary valuation methods for use in cost-benefit analysis and Social Return on Investment-SROI (including the Wellbeing Valuation); 	<ol style="list-style-type: none"> 1. A non-technical introduction covering the main concepts and rationale for monetary valuation; 2. Embedding social impact in your organizations, decision-making and investment strategy.

REGISTRATION FEE

ISP MEMBER
RM550.00 (Inclusive of 6% SST)

NON-MEMBER
RM650.00 (Inclusive of 6% SST)

SPEAKER - MR DEVANDRAN

²Bachelor of Science with Honours RSPO, ISCC, MSPO, ISOs, FSC, UTZ, GMP+, etc-Programme Consultant

WORKING EXPERIENCE:

² Has consulted for more than 30 companies on MSPO (both Part 3 & 4) and successfully certified by various certification bodies

² Has had a wide range of experience covering in ISO 9001, 14001 and 45001 and had made extensive tailor-made consultation for various industries covering quality, health, safety, environment, social and sustainability

² Profound knowledge and experience in Greenhouse Gas emission calculation

² Carrying hands-on experience in plantations and forestry

² Management Consultant and Trainer in PETERSON Malaysia

5-6 October 2020

[MSPO Part 3 & MSPO Part 4]
