CHIEF EXECUTIVE'S NOTES

A Year of Growth and Gratitude

2024 was an exciting and outstanding year. But 2025 is going to be a historical year based on its projected financial performance till September 2025. We are certain of achieving our target for 2025 if the fourth quarter results are good.

In the third quarter of 2025, one of the main highlights was the NATSEM 2025. The response was overwhelming with 1000 participants including some overseas participants. We are thankful to stakeholders in the plantation industry & for supporting this yearly signature seminar.

As for Certification in Plantation Management training, the collaboration between ISPM and SD Guthrie had commenced in September 2025. We expect this to be a long term programme to benefit many supervisors in SD Guthrie.

As for membership, only 60% of the members had paid their subscription for 2025. With the latest reminders through WhatsApp messages and emails, we hope members will settle their dues soon.

We are delighted to note that many of the ISP Branches are active and vibrant with many activities and programmes. An active branch will attract new members and retain existing members.

As you are aware, my contract had ended on 30 September 2025. I take this opportunity to thank the Board of Directors, Standing Committees, members, secretariat and stakeholders in the plantation industry for your support and guidance over the years. I truly enjoyed my work in ISP/ISPM. I am certain ISP will always be strong and will strive for the interests of planters. In addition, all of us has a duty to ensure the constitution of ISP is always upheld and protected.

Rajindran Irusan
